UPDATE: Yes, it's a Razor Crypter V 12.0.0 Cracked. After searching through the file, it looks like it's just a different version. This site seems to have it, and it's from 2012, which is also listed on the main page of Razor Crypter V 12.0 Crack. . SGH.RZC.V12.CRACKED.winrar The user, username, and serial numbers on file are the same as the Razor Crypter V 12.0.0 Cracked version. But you can see that the version is different, as well as the platform it's for (Windows). The ones on the Razor Crypter V 12.0.0 Cracked page appear to be the same as the ones you posted, except with W7 instead of W8 or lower. It may be the same as the W8 version, but you can't tell for sure from the two pictures. Other changes may be added to the program as time goes on, so in general it may not be a good idea to base your program off of an old version you found. . Am. Pub. Co., 855 F.2d 914, 923 (
