Ease your mind of worries because iTUNES Recovery is here to fulfill all your backup needs. The application efficiently recovers previous iTunes backups that you've deleted (or accidentally lost) and lets you browse through them in order to get back all of your personal files and information. The application allows you to save the recovered content directly to your computer or copy it to the removable device, such as an iPod, that you've used for the backup. iTunes Recovery is easily operated and does not require any technical knowledge; just drag and drop the backup file onto the application window and start the iTunes transfer process. In addition, the application helps to restore your previously deleted or lost media files, such as video, audio and images. The content may be saved to your computer or copied to the backup device; the choice is yours. To make the process even easier, you can use one of the five pre-defined transfer styles, which include the one-way and two-way recovery options. Tired of searching for your lost files? Just try the incredibly useful recovery tool that comes as a standard feature in Apple's iTunes software! iTunes Recovery for iPhone, iPod or iTunes is a free application, available from Apple's official web site.Twitter is in the middle of a legal battle with the Mexican government over the rights to the wildly popular microblogging service. A subsidiary of the No.1 Internet company in Latin America sent a cease-and-desist letter to the Mexican government last month, claiming that it owns the rights to Twitter's trademark for the term "tweet" in Mexico, Bloomberg News reported. The trademark, which the Twitter subsidiary, @Patreon de Mexico, holds, appeared to allow the federal government to shut down websites that use the term "tweet" to refer to a microblogging service, the Mexican publication, Mexican Digital Times reported. It's unclear exactly how the Mexican government wants Twitter to stop using the term in Mexico. Apparently the government wanted Twitter to change its name to "Aliketweet" or "Xweet" in Mexico. Twitter has rejected that idea, the Bloomberg report said. The government's claim to the trademark could also put on hold a potential deal with the world's largest music company, Sony Corp. Sony said last year it was in talks with Twitter about joining forces to push video content to customers through the Twitter stream. The company has offered to
